About Us

Nilvon Automation Driven by a passion for integrating technology into daily life, Nilvon Automation enhances home living with smart solutions.

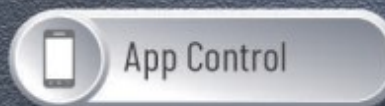

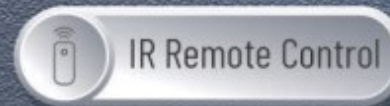

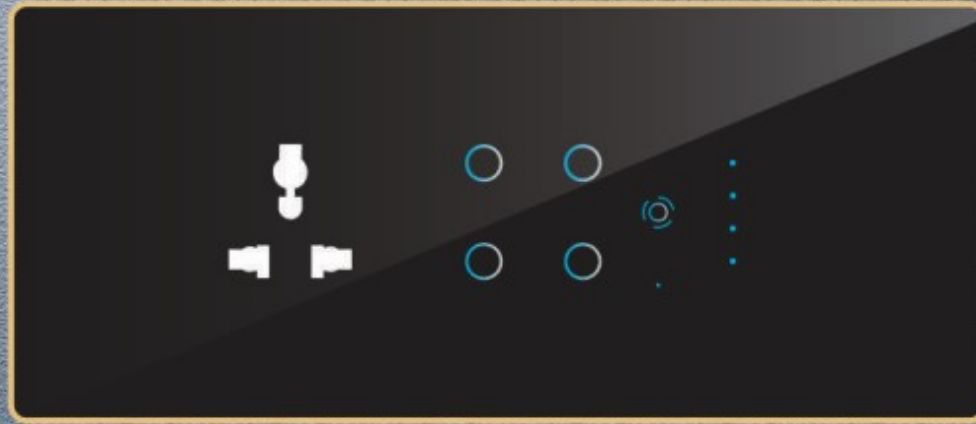

Vision

Redefine home living with innovative automation. Empower customers with convenience, security, and sustainability. Create adaptable environments that improve quality of life.

Mission

Simplify daily living with advanced automation. Focus on convenience, security, and energy efficiency. Commit to innovation, reliability, and personalized service.

EDGE

Edge Touch switches are made from premium materials like Acrylic and Glass Sleek Design with chrome finish border and also come in a variety of finishes, making them the perfect addition to any home or office décor. They are also highly durable and long-lasting, ensuring you get years of reliable and consistent performance

Our touch switches are also designed to provide you with maximum convenience and security. You can easily control your lights from anywhere, using your smart phone or tablet, ensuring you always come home to a welcoming and well-lit space.

Color

Color is the latest in Home Automation technology, and it's the best smart touch panel available in India. With its sleek design and advanced functionality, color is game changer in the world of home automation with RGB colors to customize your touch switch. You can adjust the saturation and brightness of any color to create your perfect shade. And with the ability to set cool icons for your switches, you can truly make it your own.

SLEEP SENSOR

The synchronous perception technology of personnel physiological parameters used to monitor breathing and sleep. The perception status in a specific place is realized and is linked through wireless signal notification gateway.

Static Dwell Alarm

When detect human long time stationary, the radar will push alarm to APP to notify family member to pay attention to the abnormal static dwelling.

HUMAN PRESENCE / FALL SENSOR

Human presence or fall detection sensor it reports in about 0.5 seconds if a human is detected and within about 10 seconds if a person falls. Radar breaks fall state if the person stands up about 1m in the detection range.

SMART HOME SOLUTION

- ☐ Digital Locks
- ☐ Video Door Phone; Smart Camera
- ☐ Smoke Sensor
- ☐ Motion Sensor
- ☐ Curtain Automation
- ☐ Lighting Automation

INTRUSION ALARM SYSTEM

- ☐ Intrusion Alarm Controller
- ☐ Door open sensor
- ☐ Vibration sensor
- ☐ Motion sensor
- ☐ Glass break sensor
- ☐ Alarm device
- ☐ LPG Gas detector
- ☐ CCTV Camera
- ☐ Smoke Sensor

ALERT MESSAGE & CALL
WHEN INTRUSION DETECTED

ACCESS CONTROL SYSTEM

CONTROLLER & READER

- ☐ Single Door Controller
- ☐ 2Door Controller
- ☐ 4Door Controller
- ☐ Fingerprint Reader
- ☐ Face Reader
- ☐ Card Reader

LOCKING DEVICES

- ☐ Magnetic Lock
- ☐ Outdoor MAG lock
- ☐ Drop Bolt
- ☐ Electric Strike
- ☐ Motorized Lock

CALL POINTS

- ☐ Breakglass or Resettable
- ☐ SPDT / DPDT / TPDT
- ☐ Protective flap optional
- ☐ Multi-colours available
- ☐ Different shapes available
- ☐ Manual Call Point Cover

EXIT SWITCH

- ☐ No Touch or Touch type
- ☐ Push Button / Key type
- ☐ NC/COM, SPDT & DPDT
- ☐ Indoor or Outdoor switch
- ☐ LED or Non-LED type
- ☐ With tamper optional

GATE & ENTRANCE AUTOMATION

- ❑ Automatic Gate Operator
- ❑ Automatic Sliding Door
- ❑ Turnstiles
- ❑ Boom Barrier
- ❑ Flap Barrier
- ❑ Tripod
- ❑ Door Frame Metal Detector

DISABLED TOILET ALARM

- ❑ 2 Wire System
- ❑ Optional Relay for integration
- ❑ Call Accept in Controller
- ❑ Remote Monitoring Panel Optional

- ❑ 3 Wire System
- ❑ Relay output for integration
- ❑ Call Accept in Controller
- ❑ Inbuilt 9V Battery option
- ❑ Remote Monitoring Panel Optional
